Zer BAILEY'S VARIETIES continue to draw crowds of delighted auditors. Saturday night, in addition to other attractions, BILL Parrow was introduced. Bill is "a brick"wherever he is, you may look out for fun and plenty of it. The dramatic portion of the performances are excellent, as also is the drawing. The price brings the exhibition within the range of the "purse of the million," and gladly do "the peeps" embrace the occasion to see the actors "hold the mirror up to alysis, Sprains, Bruises, Burns, Scalds, &c., nature." A good bill is up for to-night.

Opp Fellows' Hall .- The beautiful paintings of Dr. Beale, on exhibition at Odd Fellows' Hall, continue to draw large and fashionable houses. The Dr. has consented to remain with us a few nights longer.

The Committee of arrangements for the Telegraph Jubilee, are requested to meet on Monday at 9 o'cleck A. M., at the office of which John Williams, at the old stand of Andrew Ewing, Esq.

GEN. WALKER AND CENTRAL AMERICA .- If we are to credit a correspondent of the Aspinwall Liberal, who writes from San Juan del Norte on the 18th uit, the proceedings Millinery Goods at the New York Emporium, 32 Union and intrigues of Monsieur Belly have produced a reaction in favor of the grey-cycl man of destiny, and the Cabinet of Nicaragua | Memphis, taken at 15 cents on the dollar, will no longer oppose his return. The writer says that many who have heretofore most strengously opposed Walker would now be glad to see him back in the country, and believe that the best and most satisfactory mode of settling the Central American ques-Walker and his followers back to Punta | n the city Arenas from whence they were taken by Commodore Paulding. Walker as the acknowledged head of affairs. We must of course make every allowance for the favorable source from whence these opinions emanate, but they are worthy of record as showing that there is an instabil ty in defeat as well as success. That any "aid and comfort" should be extended to Walker from freak of fortune; still however, it is a doubtful question whether he will carve his Christmas turkey in quiet there, without the accom-

paniments of powder and cannon balls.

FRAZER RIVER GOLD REGION. - The glowing reports of this new Et Dorado produced au excitement and consequent rush that deprived California of thousands of her hardworking population. But there seems to have been a chill after the fitful fever, and now it begins to be seriously questioned whether the Frazer river gold region is not all a bumbug. The San Erancisco papers hint that forged letters conveying fabulous accounts of auriferous mines were planned by ship owners, who have made their "stie" by conveying Ward, at the ensuing election. auguste passengers, to the extent of nearly forty thousand, from California to Frazer and Thompson rivers. If the gold yield of the region turns out to be so small as not to pay the expense of search, there will be a vast amount of suffering and destitution among Book Sellers, Book-Binders and those who have madly followed the shadow while they lost the substance of comfort in their mining settlements of California. The real truth will not be known for some time yet, as the fall season must advance before the richness of the diggings can be tested!-Till then what toils and privations, what hunger and starvation will be endured by those who run the mad race after the phantom Gold. As a newspaper had been started at Victoria dast June, we may expect that it will give all the proper information to the world which-will decide whether the rush to Vancouver's Land will be continued or the trappers of the Hudson Bay Company be left so the enjoyment of their beaver-dams and

FACTS FOR THE PEOPLE.-It was a noted Council ordered it removed several meeting saying of the great Dr. Magendie, when lecsince, which order was not carried out from turing before his class, "I care not a button some cause; nd now we notice at Council's for theories; give me facts." This is likewise last meeting a resolution was passed ordering the motto of the celebrated Dr. Bragg, who, another stall to be erected just in the rear of | by a careful observance of facts alone, has been enabled to bring his medical preparations to such perfection. His latest invention, the Arcric Liniment, is also his greatest invention; and it may be stated as a "fact for the people," that it is the best Liniment now in existence, and destined to supersede all others. Another fact is, that it never fails to cure those diseases for which it is recommanded. The best evidence of the value of a medicine is, that it effects a radical cure, and this is eminently the case with the Arctic Liniment. It cures Rheumatism, Neuralgia, Parand all eruptive diseases; and is equally efficacions in curing the diseases of animals, such as spavin, ring-bone, poll-evil, &c.
